FINANCIAL SECTION

Independent Auditors' Report

To the President and Members
St. James Parish Council
Convent, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of St. James Parish, State of Louisiana, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise St. James Parish's basic financial statements as listed in the table of contents. We did not audit the financial statements of the discretely presented component unit, St. James Parish Hospital, which reflects 100 percent of the assets, net position, and revenues of the discretely presented component units' activities.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of St. James Parish Hospital, which represents 100 percent of the assets, net position, and revenues of the discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for St. James Parish Hospital, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of St. James Parish, State of Louisiana, as of December 31, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note IV. E to the financial statements, the Parish adopted Governmental Accounting Standards Board (GASB) Statement Number 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* for the year ended December 31, 2018. This new standard requires the Parish to recognize and report its total other postemployment benefit liability, measured according to actuarial methods and approaches prescribed within the standard along with certain disclosures. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 16, the budgetary comparison information on pages 84 through 87, the Schedule of Changes in Total Other Postemployment Benefits Liability and Related Ratios on page 88, the Schedule of Proportionate Share of the Net Pension Liability for the Retirement Systems on page 89, the Schedule of Contributions to Each Retirement System Defined Benefit Cost Sharing Plans Only on page 90, and the Notes to Required Supplementary Information on pages 91 through 93 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise St. James Parish's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, the schedule of compensation, benefits, and other payments to agency head, the schedule of compensation paid to parish council members, the schedule of program revenues, expenditures and changes in fund balance – contracts and grants provided through the Louisiana Governor's Office of Elderly Affairs (GOEA), the schedule of program expenditures – budget vs. actual – contracts and grants provided through the Louisiana Governor's Office of Elderly Affairs (GOEA) are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements of St. James Parish, State of Louisiana.

The combining and individual nonmajor fund financial statements, the schedule of compensation, benefits, and other payments to agency head, the schedule of compensation paid to parish council members, the schedule of program revenues, expenditures and changes in fund balance – contracts and grants provided through the Louisiana Governor’s Office of Elderly Affairs (GOEA), the schedule of program expenditures – budget vs. actual – contracts and grants provided through the Louisiana Governor’s Office of Elderly Affairs (GOEA), and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the procedures performed as described above, the combining and individual nonmajor fund financial statements, the schedule of compensation, benefits and other payments to agency head, the schedule of compensation paid to parish council members, the schedule of program revenues, expenditures and changes in fund balance – contracts and grants provided through the Louisiana Governor’s Office of Elderly Affairs (GOEA), the schedule of program expenditures – budget vs. actual – contracts and grants provided through the Louisiana Governor’s Office of Elderly Affairs (GOEA), and the schedule of expenditures of federal awards are fairly stated in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 28, 2019, on our consideration of St. James Parish, State of Louisiana’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of St. James Parish, State of Louisiana’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering St. James Parish, State of Louisiana’s internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of St. James Parish primary government (Parish) we offer readers of the Parish's financial statements this narrative overview and analysis of the financial activities of the Parish government for the fiscal year ended December 31, 2018.

Financial Highlights

- ◆ The Parish's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at December 31, 2018, by \$155,887,854 (net position). Unrestricted net position is \$15,731,857.
- ◆ The Parish's total net position increased \$8,026,959 over the previous year's restated net position with \$6,933,199 of the increase resulting from governmental activities. Business-type activities had a \$1,093,760 increase in net position.
- ◆ At December 31, 2018, the Parish's governmental fund statements reported combined ending fund balances of \$70,059,233, an increase of \$7,430,379. Of this amount, \$5,927,831 remains in the General Fund of the Parish as unassigned.
- ◆ The General Fund, the Parish's primary operating fund, reported a total ending fund balance of \$13,243,323, an increase in total fund balance from the last fiscal year of \$1,487,441.
- ◆ Total capital assets decreased from the prior year by \$2,324,039 as a result of the sale of the Youth Center, machinery and equipment, and library collections having a net book value of approximately \$1,000,000 and depreciation totaling approximately \$4.8 million. The current year additions of capital assets totaled approximately \$3.5 million to offset this decrease.
- ◆ Total debt decreased from the prior year by \$5,328,944 mostly due to a decrease in pension liability of \$3,642,215; a decrease in total other postemployment benefits liability of \$889,457; a decrease in bonds, certificates of indebtedness, limited tax bonds, and capital lease liabilities of \$722,605; and a decrease in compensated absences of \$74,667.

Current Year Adoption of New Accounting Standards and Restatement of Prior Year Net Position

For the year ended December 31, 2018, the Parish adopted Government Accounting Standards Board (GASB) Statement No. 75 (GASB 75), *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*.

The net effect to the entity-wide Statement of Net Position for the prior year that resulted from the adoption of GASB 75 and the restatement of the prior year balances is as follows:

	Governmental Activities	Business-Type Activities
Total net position, December 31, 2017, as previously reported	\$ 123,717,191	\$ 30,311,156
Record Net OPEB Liability at December 31, 2017	(8,173,865)	(1,246,418)
Add back Net OPEB obligation recorded at December 31, 2017	2,859,168	393,663
Total net position, December 31, 2017, as restated	\$ 118,402,494	\$ 29,458,401

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to St. James Parish's basic financial statements. The Parish's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. There is additional supplementary information following the financial statements that may be of interest to the reader.

Government-wide financial statements

Government-wide financial statements are designed to provide the reader with a broad overview of the Parish's financial position, in a manner similar to a private-sector business. They include a **Statement of Net Position** and a **Statement of Activities**. These statements appear on pages 17 to 19 of this report.

The **Statement of Net Position** presents the Parish's assets and deferred outflows less its liabilities and deferred inflows at year end. The difference between these assets and deferred outflows and liabilities and deferred inflows is reported as net position. Changes in net position over time may serve as a useful indicator of whether the financial position of the Parish is improving or deteriorating.

The **Statement of Activities** presents information showing how the Parish's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (for example, accounts payable and earned but unused vacation leave).

Both statements attempt to distinguish functions of the Parish that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). Governmental activities include general government, public safety, highways and streets, sanitation, public housing, public transportation, health and welfare, culture and recreation, and economic development expenditures. Business-type activities include gas and water distribution and youth detention.

The government-wide financial statements include not only St. James Parish itself (*primary government*), but also separate legal governmental entities (*component units*) to which the Parish may be obligated to provide financial assistance. Component units are presented as separate columns in fund financial statements. The component unit agencies issue separate, independently audited financial statements. Financial statements for each of the individual component units may be obtained at the component unit's administrative offices.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Parish, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the Parish's funds can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Unlike the government-wide financial statements, however, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Parish's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds' balance sheet and the governmental funds' statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Parish maintains 58 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds' statement of revenues, expenditures, and changes in fund balances for the General Fund, the Courthouse, Jail, and Public Buildings Maintenance Fund, and the CDBG Disaster Recovery Projects Fund, all of which are considered to be major funds. Data from the other 55 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements as supplementary information.

The basic governmental fund financial statements can be found on pages 20 to 25 of this report.

Proprietary funds. The Parish maintains and presents two types of proprietary funds: enterprise and internal service, which can be found on pages 26 to 33 of this report.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Parish has two enterprise funds, the St. James Parish Gas & Water Distribution System Fund, which accounts for expenses to distribute natural gas & water, and the St. James Youth Center Fund, which accounts for the expenses for juvenile detention.

Internal service funds are an accounting tool used to accumulate and allocate costs internally among various functions. The Parish uses an internal service fund to account for its self-insured health insurance program. Because this service predominately benefits governmental rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The St. James Parish Gas & Water Distribution System Fund is considered to be a major fund of the Parish.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the information provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 34 to 83 of this report.

Other information. The combining statements referred to earlier in connection with nonmajor governmental funds are presented as supplementary information. Combining fund statements and schedules can be found on pages 94 to 124 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the Parish's financial position. In the case of St. James Parish, governmental activities' assets and deferred outflows exceeded liabilities and deferred inflows by \$125,335,693 at December 31, 2018.

The following table reflects the condensed Statement of Net Position for 2018 and 2017:

Approximately 49.0% (\$76,421,855) of the Parish's total net position as of December 31, 2018, reflects the Parish's investment in capital assets (land, buildings, infrastructure, machinery and equipment) less any related outstanding debt used to acquire those assets. The Parish uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Another 40.9% (\$63,734,142) of the total net position is subject to external restrictions on how these assets may be used, such as property tax approved by the electorate for specific purposes. The remaining total net position of \$15,731,857 is referred to as unrestricted.

Governmental activities

Governmental activities account for 80.4% of the Parish's net position. One of the major components of general revenue collected by governmental activities is property taxes, which represents 53.4% of the Parish's total governmental revenue. In 2018, property taxes were assessed at a millage rate of 36.63 mills. Property tax revenue increased \$1,609,946 to \$18,716,971, a 9.4% increase from the previous year.

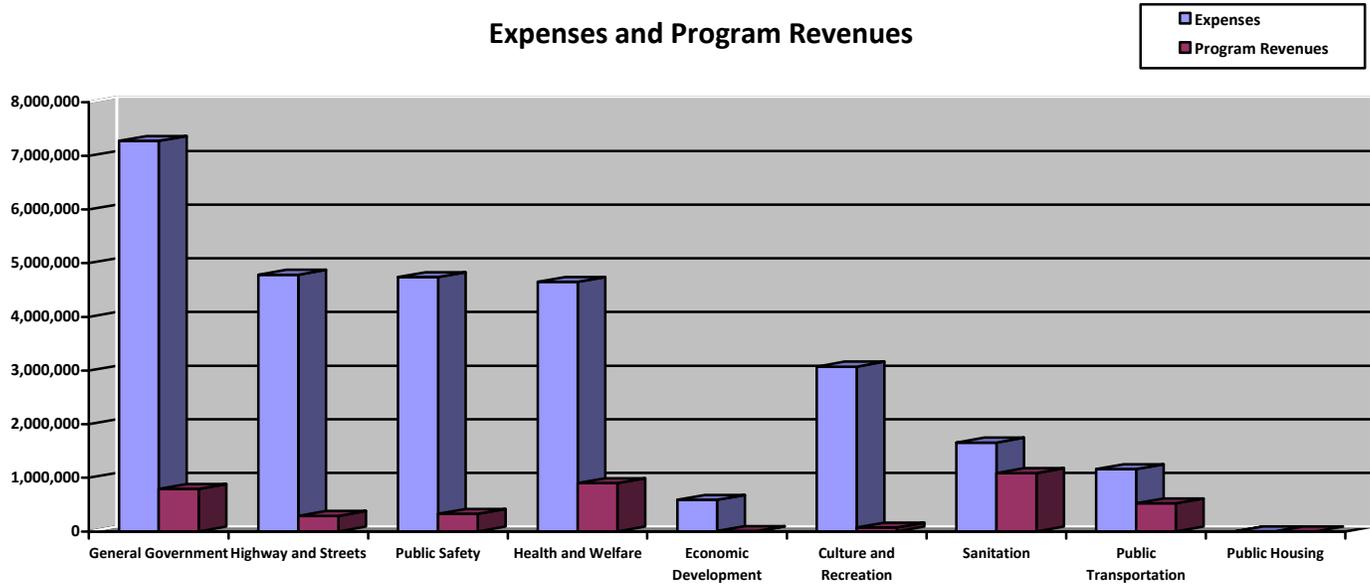

Other variances in governmental activities include:

- ◆ Sales and use tax collections increased by \$1,838,900, or a 29% increase. Total sales and use tax collections are comprised of parish sales and use taxes, which increased 31%, and motor vehicle sales taxes, which decreased 2%.
- ◆ Operating and capital grants and contributions decreased by \$2,426,398, or a 42% decrease. Several of the Community Development Block Grants projects were completed in 2017 and no additional funding received in 2018, resulting in a decrease of approximately \$895,000. Also in 2017, donations of fire stations and related land totaled \$1,481,000.
- ◆ A decrease in general governmental expenses by \$312,270, or 4%, from 2017.
- ◆ An increase in highway and streets expenses by \$432,142, or 10%, is mostly due to increases in expenditures in the Parishwide Road Improvement Fund for the St. James Asphalt Road Rehabilitation project.

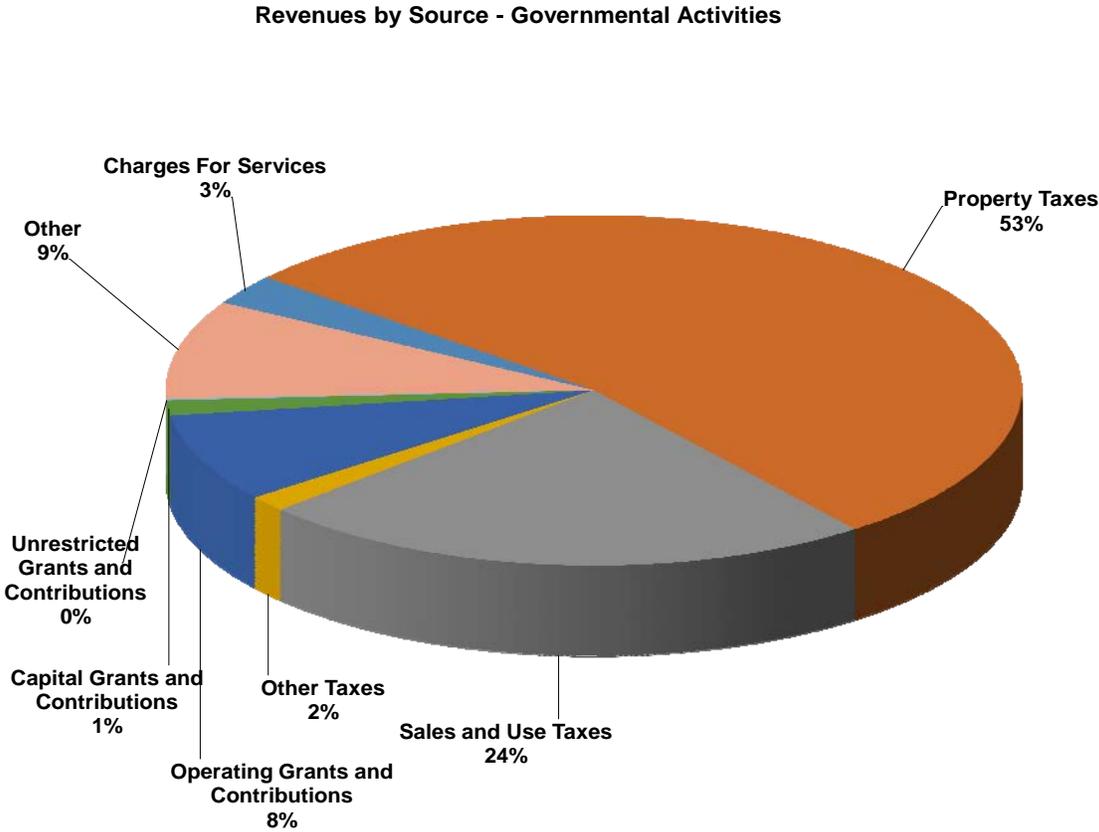

The following is a summary of activity for 2018 and 2017:

Business-type activities

St. James Parish has two business-type activities: The St. James Parish Gas & Water Distribution System and the St. James Youth Center. The Gas & Water Distribution System's principal activities are the providing of gas and water services to the citizens and businesses of the Parish. The St. James Parish Youth Center's principal activity is to provide juvenile detention.

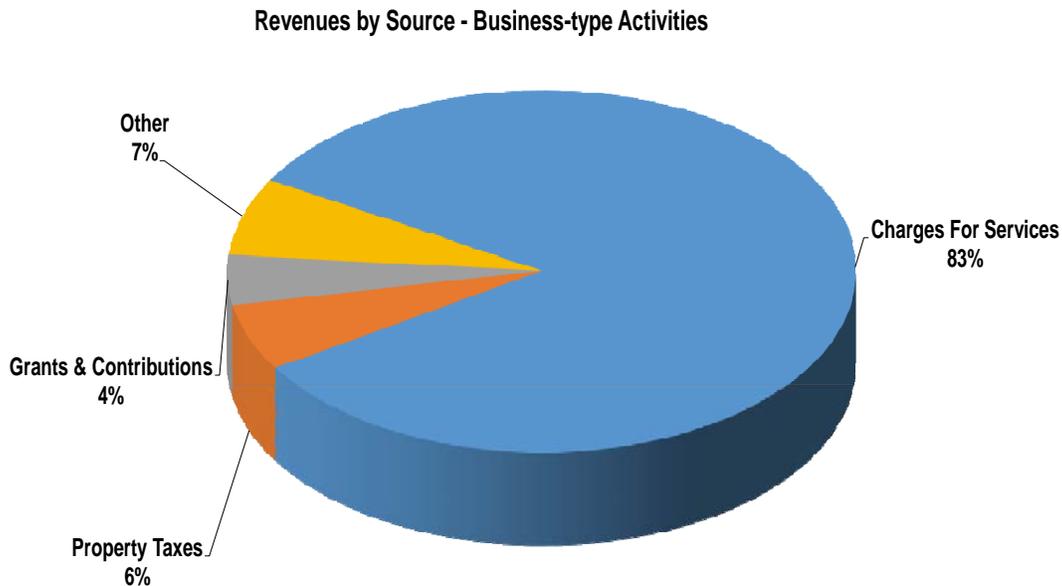

The St. James Parish Gas & Water Distribution System's net position at December 31, 2018 was \$28,002,081 compared to the restated net position in 2017 of \$27,292,547. The System's net position increased \$709,534 in 2018, as compared to \$1,555,457 increase in 2017. The decrease is attributed to a decrease in federal grant funding from the U.S. Department of Commerce for the East Bank Treatment Plant in the amount of \$790,691. The majority of the construction costs and related grant revenue occurred in 2017.

The St. James Youth Center's net position at December 31, 2018 was \$2,550,080 compared to the restated net position in 2017 of \$2,165,854. In 2018, the Youth Center's capital assets were sold at a gain of \$210,000. In addition to the gain on the sale, depreciation expense decreased approximately \$163,000.

The following graph is a comparison of program revenues and program expenses for the two business-type activities.

The following pie chart illustrates the composition of business-type activities revenue and its percentage in relation to total business-type revenues:

Financial Analysis of the Parish's Funds

As noted earlier, the Parish uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds: The focus of governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Parish's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The combined ending fund balance for all governmental funds at December 31, 2018, was \$70,059,223. Of this amount, \$5,927,831 was included in unassigned fund balance, \$54,228 in assigned fund balance, \$1,346,935 was included in committed fund balance, \$62,589,951 was included in restricted fund balance, and the remaining \$140,288 was in nonspendable fund balance. The combined ending fund balance at the end of the year increased \$7,430,379 from \$62,628,854 at the end of the prior year.

The General Fund is the chief operating fund of the Parish and is considered a major fund under criteria set forth by GASB Statement No. 34. At the end of the current fiscal year, the General Fund's total fund balance was \$13,243,323 with an unassigned fund balance of \$5,927,831. Fund balance increased \$1,487,441 in 2018.

The Parish has two other governmental funds that are considered major funds. Those funds include the Courthouse, Jail, and Public Buildings Maintenance Fund and the CDBG Disaster Recovery Projects Fund. A brief discussion of these funds follows:

Courthouse, Jail, and Public Buildings Maintenance Fund: This fund manages the general operating and maintenance cost of public buildings owned by the Parish. Revenue is received from property taxes and the rental fees for parish owned public buildings. The Courthouse, Jail, and Public Buildings Maintenance Fund has a restricted fund balance of \$10,221,457 for 2018.

CDBG Disaster Recovery Projects Fund: This fund accounts for projects relating to hurricane disaster recovery. Funding is provided from the State of Louisiana, Division of Administration, Office of Community Development. The CDBG Disaster Recovery Projects Fund has a restricted fund balance of \$1,957 as of December 31, 2018.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were \$1,498,300 (increase in revenues over expenditures including transfers) and can be briefly summarized as follows:

- ◆ Increase in budgeted revenues in the amount of \$1,046,800 was primarily due to an increase in budgeted property taxes of \$545,000 and an increase in sales and use for the amount of \$303,200.
- ◆ Decrease in budgeted expenditures by \$434,600, primarily due to a decrease in budgeted general government expenditures of \$494,100.
- ◆ Operating transfers out decreased by \$16,900.

Capital Asset and Debt Administration

Capital assets. The Parish's investment in capital assets for its governmental and business-type activities as of December 31, 2018, amounts to \$80,575,937 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system improvements, machinery and equipment, roads, and drainage systems. The total decrease in capital assets for the current fiscal year was \$2,324,039 which includes a \$1,159,065 decrease for governmental activities (1.7%) and a \$1,164,974 decrease for business-type activities (7.1%). The major additions to the Parish's capital assets were the purchases of eight vehicles (\$246,457), fire truck (\$779,338), audio/visual communication equipment upgrades (\$58,965), dump truck (\$125,048), freightliner truck (\$152,578), passenger van (\$58,976), land purchase (\$162,470), workstations (\$56,193), jail access controls upgrades, (\$171,156), jail re-roofing (\$678,730), and additions to active construction projects such as the Laura Ditch (\$240,462), Molaison Sewer Project (\$32,864), Highway 641 Lighting (\$24,486), East Bank Raw Water Intake Project (\$408,653), and completion of construction project, Highway 44 Water Main Improvement Project (\$269,543). The Youth Center's capital assets having a net book value of \$990,000 were sold in 2018.

Depreciation expense for the year ended December 31, 2018 totaled \$4,770,650. Governmental activities had \$3,895,373 in depreciation expense and business-type activities' depreciation expense was \$875,277.

Additional information on the Parish's long-term debt can be found on pages 56 to 58 of the Notes to the Financial Statements.

Economic Factors and Next Year's Budget and Rates

The following factors were considered in preparing the Parish's budget for the 2019 fiscal year:

Revenues, not including operating transfers, are expected to be \$41,069,700, a decrease of 8.1% from 2018 revenues.

The Parish is heavily dependent upon taxes derived from the chemical industry. It is anticipated that property taxes will decrease by 7.2% or \$1,378,811 as compared to property tax revenue in 2018.

St. James Parish's September 2018 unemployment rate was 6.4%, as compared to the state's rate of 5.3%. (Source: Louisiana Labor Market Information, October 26, 2018).

 Governmental Funds to the Statement of Net Position
 December 31, 2018

Total fund balances at December 31, 2018 - governmental funds		\$ 70,059,233
---	--	---------------

Amounts reported for governmental activities in the statement of net position are different because:

Certain long-term assets and deferred outflows of resources are not reported in the fund financial statements because they are not available to pay current-period expenditures, but they are reported as assets and deferred outflows of resources in the statement of net position.

Ad valorem taxes receivable	129,920	
Prepaid assets	154,029	
Deferred loss on debt refunding	98,180	
Deferred outflows related to pension liability	1,851,352	
Net pension asset	739,185	2,972,666

Capital assets are not reported in fund financial statements because they are not current financial resources, but they are reported in the statement of net position.

Cost of capital assets at December 31, 2018	145,346,168	
Less: accumulated depreciation as of December 31, 2018	(79,918,541)	65,427,627

Certain long-term liabilities and deferred inflows of resources are not reported as fund liabilities because they are not due and payable in the current period, but they are presented as liabilities and deferred inflows of resources in the statement of net position.

Accrued interest payable	(44,995)	
Bonds payable	(2,725,000)	
Certificates of indebtedness	(460,000)	
Limited tax bonds	(775,000)	
Capital leases	(194,082)

Notes to the Financial Statements

INTRODUCTION

St. James Parish (the Parish) is a political subdivision of the State of Louisiana. The Parish is governed by seven council members (the Parish Council) representing the various districts within the Parish. The Parish President, elected by the voters of the Parish, is the chief executive officer of the Parish and is responsible for carrying out the policies adopted by the Parish Council and for administration of all Parish departments, offices, and agencies. The current Parish President and seven council members serve four-year terms, which expire on January 13, 2020.

Louisiana Revised Statute 33:1236 gives the Parish various powers in regulating and directing the affairs of the Parish and its inhabitants. The more notable of these are the power to make regulations for their own government, to regulate the construction and maintenance of roads, bridges, and drainage systems, to regulate the sale of alcoholic beverages, and to provide for the health and welfare of the poor, disadvantaged, and unemployed in the Parish. Funding to accomplish these tasks is provided by property taxes, sales taxes, service charges, beer and alcoholic beverage permits, state revenue sharing, and various other state and federal grants.

To fulfill its responsibilities to the poor, disadvantaged, and unemployed in the Parish, the Parish may provide for specialized health service programs, emergency food and medical assistance, family planning assistance, recreation and service centers for the elderly, consumer education, agricultural assistance, and economic development activities. To provide funding for these activities, the Parish, in addition to local funding sources, performs the functions of a community action agency under the terms and provisions of the United States Economic Opportunity Act of 1964.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying financial statements of St. James Parish have been prepared in conformity with generally accepted accounting principles (GAAP) in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. REPORTING ENTITY

The financial reporting entity consists of (a) the primary government (the Parish), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 61, Section 2100, *Defining the Financial Reporting Entity*, establishes criteria for determining which component units should be considered part of the Parish for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. The criteria include:

ST. JAMES PARISH
 Convent, Louisiana
 Notes to the Financial Statements (Continued)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. REPORTING ENTITY (Continued)

1. Appointing a voting majority of an organization's governing body and,
 - a. The ability of the Parish to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Parish.
2. Organizations for which the Parish does not appoint a voting majority but which are fiscally dependent on the Parish.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based on the previous criteria, the Parish has determined that the following component unit is part of the reporting entity:

Component Unit	Fiscal Year End	Criteria Used	Type of Presentation
St. James Parish Hospital	March 31	1,3	Discrete

Complete financial statements for the St. James Parish Hospital may be obtained at the component unit's administrative office at 1645 Lutcher Avenue, Lutcher, Louisiana, 70071.

The Parish's financial statements do not include the component units that are multi-parish component units. The multi-parish component units include:

Multi-Parish Component Unit	Fiscal Year End	Component Unit of
District Attorney of the Twenty-third Judicial District	December 31	Ascension Parish
Twenty-third Judicial District Indigent Defender Board	December 31	Ascension Parish

Considered in the determinations of component units of the reporting entity were the St. James Parish School Board, St. James Parish Assessor, St. James Parish Sheriff, St. James Clerk of Court, and the various municipalities in the Parish. It was determined that these governmental entities are not component units of the St. James Parish reporting entity. All are governed by independently elected officials. The Parish oversight unit neither appoints governing Boards nor designates management. Furthermore, the Parish has no ability to significantly influence operations nor does it have any accountability for fiscal matters of the entities. They are considered by the Parish to be separate autonomous governments and issue financial statements separate from those of the St. James Parish reporting entity.

The Parish is responsible for appointing the members of the board of the St. James Housing Authority. The Parish's accountability for the Housing Authority does not extend beyond making the appointments. It was determined that the St. James Housing Authority is a related organization to the Parish.

C. BASIS OF PRESENTATION

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of St. James Parish and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, St. James Parish is reported separately from certain legally separate *component units* for which St. James Parish is financially accountable.

These financial statements are presented in accordance with GASB Statement No. 34, *Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments*. Statement No. 34 established standards for financial reporting, with presentation requirements originally including a statement of net assets (or balance sheet), a statement of activities, and a statement of cash flows. The definition and composition of these statements, as originally defined in GASB Statement No. 34, are as amended by GASB Statements included in the following paragraphs. St. James Parish has also adopted the provisions of GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions* that require capital contributions to St. James Parish to be presented as a change in net position.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the Parish's water and gas function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Parish reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Courthouse, Jail, and Public Buildings Maintenance Fund* accounts for the operation and maintenance of the public buildings in the Parish. Financing is provided by property taxes and state revenue sharing.

The *CDBG Disaster Recovery Projects Fund* accounts for projects relating to hurricane disaster recovery. Funding is provided from the State of Louisiana, Division of Administration, Office of Community Development.

C. BASIS OF PRESENTATION (Continued)

Fund Financial Statements (Continued)

The Parish reports the following major proprietary funds:

The *St. James Parish Gas & Water Distribution System Fund* accounts for the sale and distribution of gas and water to the residents of St. James Parish.

Additionally, the Parish reports the following non-major governmental fund types and proprietary funds:

Special revenue funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Debt service funds account for the accumulation of resources for the payment of principal and interest on long-term obligation debt of governmental funds.

Capital projects funds account for financial resources received and used for the acquisition, construction, or improvements of capital facilities not reported in other governmental funds.

St. James Youth Center Fund accounts for the maintenance, operations, and management of a juvenile center for children who enter the juvenile justice system.

Internal service fund accounts for the provision of group health and life insurance provided to the Parish's employees.

D. MEASUREMENT FOCUS / BASIS OF ACCOUNTING

Government-Wide Financial Statements (GWFS)

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses net of uncollectible amounts are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund Financial Statements (FFS)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when a payment is due.

Notes to the Financial Statements (Continued)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. MEASUREMENT FOCUS / BASIS OF ACCOUNTING (Continued)

Fund Financial Statements (FFS) (Continued)

Franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Property taxes that are measurable and available (receivable within the current period and collected within the current period or within 60 days thereafter) are recognized in the year of levy. Sales and use tax revenues are considered measurable when the underlying transaction occurs and are recognized as revenue if collected soon enough to meet the availability criteria. Revenue from grants are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources can be used. All other revenue items are considered to be measurable and available only when cash is received by the government.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Parish's enterprise funds and the Parish's internal service fund are charges to customers for sales and services.

The St. James Parish Gas & Water Distribution System fund also recognizes as operating revenue the portion of tapping fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and the internal service fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION

1. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include interest-bearing demand deposits and short-term investments with a maturity of three months or less from the date of acquisition. Under state law, the Parish may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States.

2. Investments

State statutes authorize the Parish to invest in collateralized certificates of deposits, government-backed securities, commercial paper, and mutual funds consisting solely of government-backed securities. In addition, local governments in Louisiana are authorized to invest in the Louisiana Asset Management Pool, Inc. (LAMP), a nonprofit organization formed by an initiative of the State Treasury and organized under the laws of the State of Louisiana, which operates a local government investment pool. Investments are stated at fair value. Fair value was determined using quoted market prices.

Notes to the Financial Statements (Continued)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION (Continued)

3. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities and any balances not eliminated due to timing differences are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable, available financial resources.

All trade and property tax receivables are shown net of allowance for uncollectibles.

Property taxes and the related state revenue sharing (which is based on population and homesteads in the Parish) are recorded in the year assessed. Property taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on December 31. The taxes are generally collected in December of the current year and January and February of the ensuing year.

4. Inventory and Prepaid Items

Inventory in the General Fund consists of expendable supplies held for consumption. The inventory is valued at cost (first-in, first-out method), and the cost is recorded as an expenditure at the time individual inventory items are requisitioned by the different departments.

Inventories in the St. James Parish Gas & Water Distribution System are stated at the lower of cost (first-in, first-out method) or net realizable value. Gas purchased in the system's lines and the water produced by the system is expensed when purchased or purified.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Parish as assets with an initial, individual cost of more than \$5,000 (equipment), \$25,000 (land or land improvements), \$50,000 (buildings and leasehold improvements) or \$250,000 (infrastructure), and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized in 2018.

E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION (Continued)

5. Capital Assets (Continued)

Property, plant, and equipment of the governmental funds, as well as the St. James Youth Center, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40 – 60
Building Improvements	7 – 20
Infrastructure	25 – 40
Heavy Equipment	10 – 20
Vehicles	5 – 8
Furniture/Office Equipment	5
Computer Equipment	5

The St. James Parish Gas & Water Distribution System’s plant, property, and equipment are stated at cost and are depreciated using the straight-line method over the following estimated useful lives:

	Years
Utility Plant, Distribution System and Components	5 – 50
Transport Equipment	5 – 8
Office Furniture, Fixtures and Equipment	3 – 15

6. Compensated Absences

Parish employees earn from 12 to 18 days of both annual and sick leave each year, depending upon length of service. Sick leave may be accumulated without limitation; however, annual leave may not be carried forward from one year to the next unless approved by the Parish President. Upon retirement, unused accumulated sick leave from 15 to 60 days depending on length of service is paid to the employee at the employee’s current rate of pay. Any unused annual leave is paid to the employee upon retirement or termination.

The cost of leave privileges is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

7. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as an outflow of resources in the reporting period in which they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources.

Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Net Position Classifications

Government-Wide Financial Statements

Government-wide and proprietary net position is divided into three components:

1. Net investment in capital assets – Consists of net capital assets reduced by the outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increase by balances of deferred outflows of resources related to those assets.
2. Restricted net position – Net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws or buyers of the Parish's bonds. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.
3. Unrestricted net position – All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Fund Financial Statements

Accounting standards require governmental fund balances to be reported in as many as five classifications as listed below:

1. Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
2. Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
3. Committed – amounts that can be used only for specific purposes determined by a formal decision of the Parish Council, which is the highest level of decision-making authority.
4. Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes.
5. Unassigned – all other spendable amounts.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION (Continued)

8. Net Position Classifications (Continued)

Fund Financial Statements (Continued)

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the Parish reduces restricted amounts first, followed by unrestricted amounts. When expenditures are incurred for purposes for which committed, assigned, or unassigned amounts are available, the Parish reduces committed amounts first, followed by assigned amounts, and finally unassigned amounts, as needed, unless the Parish has provided otherwise in its committed or assignment actions.

9. Sales and Use Tax

On April 4, 1981, the voters of St. James Parish approved a one percent sales and use tax, which is collected by the St. James Parish School Board, and then remitted to the Parish. The proceeds of the tax, after paying reasonable and necessary costs and expenses of collecting and administering the tax, are dedicated as follows:

1. One-fourth is to provide care and assistance to the elderly of the Parish and provide ambulance services to Parish residents, including the acquisition, operation, and maintenance of necessary vehicles;
2. One-fourth is to provide solid waste management and disposal including the acquisition of land, plants, buildings, machinery, and necessary equipment;
3. One-fourth is to pay the cost of providing recreational facilities, including the acquisition of land, buildings, machinery, and equipment; and
4. One-fourth is to pay the general operation and maintenance costs of the Parish, to acquire capital improvements for the Parish, and to service bonds from time to time for the purpose of making capital improvements for the purposes listed above.

10. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

11. Pension Plans

St. James Parish is a participating employer in three cost-sharing, multiple-employer defined benefit pension plans as described in Note IV C. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of each of the plans, and additions to/deductions for the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments have been reported at fair value within each plan.

ST. JAMES PARISH
 Convent, Louisiana
 Notes to the Financial Statements (Continued)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION (Continued)

12. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Parish has deferred outflows of resources related to the net pension liability of \$2,158,314 and deferred outflows of resources related to the total OPEB liability of \$-0-. See Note IV C for additional information on deferred outflows of resources related to defined benefit pension plans, and Note IV E for additional information on deferred outflows of resources related to the total OPEB liability.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until that time. The Parish has deferred inflows of resources related to the net pension liability in the amount of \$2,840,941 and deferred inflows of resources related to other postemployment benefits of \$855,612. See Note IV C for additional information on deferred inflows of resources related to defined benefit pension plans, and Note IV E for additional information on deferred inflows of resources related to total OPEB liability.

F. CURRENT YEAR ADOPTION OF NEW ACCOUNTING STANDARDS

For the year ended December 31, 2018, the Parish adopted Government Accounting Standards Board Statement No. 75 – *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. The following reflects the effect of implementation of this new accounting standard.

	Governmental Activities	Business-Type Activities
Total net position, December 31, 2017, as previously reported	\$ 123,717,191	\$ 30,311,156
Record Net OPEB Liability at December 31, 2017	(8,173,865)	(1,246,418)
Add back Net OPEB obligation recorded at December 31, 2017	2,859,168	393,663
Total net position, December 31, 2017, as restated	\$ 118,402,494	\$ 29,458,401

G. CURRENT ACCOUNTING STANDARDS SCHEDULED TO BE IMPLEMENTED

The following is a summary of accounting standards adopted by the Governmental Accounting Standards Board (GASB) that are scheduled to be implemented in the future that may affect the Parish's financial report:

GASB Statement 83, *Certain Asset Retirement Obligations (ARO)*. This standard establishes criteria for determining the timing and pattern of recognition of an ARO liability and a corresponding deferred outflow of resources. An ARO is a legally enforceable liability associated with the sale, recycling, retirement, abandonment or disposal in some other manner of a tangible capital asset permanently removed from service. The standard is effective for annual reporting periods beginning after June 15, 2018. The Parish will include the requirements of this standard, as applicable, in its December 31, 2019 financial statement. The effect of this standard or its applicability to the Parish is unknown at this time.

GASB Statement 84, *Fiduciary Activities*. This standard defines and establishes criteria for identifying and reporting fiduciary activities. The focus of the criteria is on (1) whether the Parish controls the assets in a fiduciary activity and (2) there are separate identifiable beneficiaries with whom a fiduciary relationship exists. The standard is effective for annual reporting periods beginning after December 15, 2018. The Parish will include the requirements of this standard, as applicable, in its December 31, 2019 financial statement. The effect of this standard or its applicability to the Parish is unknown at this time.

ST. JAMES PARISH
 Convent, Louisiana
 Notes to the Financial Statements (Continued)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. CURRENT ACCOUNTING STANDARDS SCHEDULED TO BE IMPLEMENTED (Continued)

GASB Statement 87, *Leases*. This standard will require all leases to be reported on the statement of net position under a single accounting model for both lessors and lessees. The statement will require the recognition of lease assets or liabilities for leases previously reported as operating leases. Both operating and capital leases will be reported under this single accounting method and reported by lessees as an intangible right to use asset and by lessors as a receivable with both reporting a deferred inflow of resources. The standard is effective for annual reporting periods beginning after December 15, 2019. The Parish will include the requirements of this standard, as applicable, in its December 31, 2020 financial statement. All of the Parish's lease agreements will need to be evaluated to determine the impact of implementing this standard; however, the effect of this standard or its applicability to the Parish is unknown at this time.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

The proposed budget for the year ended December 31, 2018, was completed and made available for public inspection at the Parish Council Office on November 1, 2017. A public hearing was held on December 13, 2017, for suggestions and comments from taxpayers. The proposed budget was formally adopted by the Parish on December 13, 2017. The 2018 budget, which included proposed expenditures and the means of financing them for the general, special revenue, debt service and capital projects funds, was published in the official journal fourteen (14) days prior to the public hearing.

All appropriations lapse at year-end, and any encumbrances outstanding at year-end are included in the next year's budget with funds appropriated in that year to finance them. The budget is prepared on a modified accrual basis. Formal budgetary accounts are integrated into the accounting system during the year as a management control device.

The Parish exercises budgetary control at the functional level. Within functions, the Director of Finance has the authority to make amendments as necessary. When actual revenues within a fund are failing to meet estimated annual budgeted revenues by five percent or more, and/or actual expenditures within a fund are exceeding estimated budgeted expenditures by five percent or more, a budget amendment to reflect such changes is adopted by the Parish in an open meeting. Budget amounts included in the financial statements include the original adopted budget amounts and the final amended budget.

B. REVENUES WITH UNFAVORABLE APPROPRIATIONS

For the year ended December 31, 2018, revenues did not meet appropriations in the following individual funds:

Fund	Budget	Actual	Unfavorable Variance
Non-major Special Revenue Funds:

A. DEPOSITS AND INVESTMENTS (Continued)

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2018, the primary government has \$12,443,551 in deposits (collected bank balances). Custodial credit risk is the risk that in the event of a bank failure, the Parish's deposits may not be returned to it. All of the primary government's deposits are either insured by federal deposit insurance or collateralized with U.S. government securities held by the pledging financial institution's trust department in the name of the Parish.

Investments

State statutes authorize the Parish to invest in Louisiana Asset Management Pool (LAMP), U.S. Treasury notes and bonds, U.S. agency securities and other governmental debt obligations with limited exceptions as noted in LA-R.S. 32.2955. Investments in time certificates of deposit can be placed with state banks, national banks or federal credit unions as permitted in state statute.

As of December 31, 2018, the Parish had its assets in money market instruments, U.S. treasury notes, and U.S. agency securities managed by financial institutions. The accounts managed by the financial institutions have a fair market value of \$ 58,827,159 as of December 31, 2018.

The Parish's investment balance at December 31, 2018 consisted of the following:

Investments (Continued)

The Parish's investment policy requires all securities to be investment-grade obligations but does not address specific credit quality ratings. The Parish does not limit the amount that may be invested in securities of any one issuer. Applicable state statutes do not address credit quality ratings, concentration of credit risk by issuer, or investment maturity limitations.

As of December 31, 2018, \$35,713,628 is invested in an external investment pool, Louisiana Asset Management Pool. LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA-R.S. 33:2955.

LAMP is a governmental external investment pool that reports at fair value. The following facts are relevant for an investment pool:

- Credit risk: LAMP is rated AAAM by Standard & Poor's.
- Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The Parish's investment is with the pool, not the securities that make up the pool; therefore, no public disclosure is required.
- Concentration of credit risk: Pooled investments are excluded from the five percent disclosure requirement.
- Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments. The WAM for LAMP's total investments is 30 days as of December 31, 2018.
- Foreign currency risk: Not applicable.

The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the value of the pool shares.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

An annual audit of LAMP is conducted by an independent certified public accountant. The Legislative Auditor of the State of Louisiana has full access to the records of LAMP.

LAMP issues financial reports which can be obtained by writing: LAMP, Inc., 228 St. Charles Avenue, Suite 1123, New Orleans, LA 70130.

Fair Value of Financial Instruments

Determination of Fair Value

The Parish categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

Fair Value Hierarchy

In accordance with this guidance, the Parish groups its financial assets and financial liabilities generally measured at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value.

- Level 1 - Valuation is based on quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 1 assets and liabilities generally include debt and equity securities that are traded in an active exchange market. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.
- Level 2 - Valuation is based on inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly. The valuation may be based on quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.
- Level 3 - Valuation is based on unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which determination of fair value required significant management judgment or estimation.

The following methods and assumptions were used by St. James Parish in estimating fair value disclosures for financial instruments:

Securities: Where quoted prices are available in an active market, we classify the securities within level 1 of the valuation hierarchy. Securities are defined as both long and short positions. Level 1 securities include highly liquid government bonds and exchange-traded equities.

If quoted market prices are not available, we estimate fair values using pricing models and discounted cash flows that consider standard input factors such as observable market data, benchmark yields, interest rate volatilities, broker/dealer quotes, and credit spreads. Examples of such instruments, which would generally be classified within level 2 of the valuation hierarchy, include GSE (Government sponsored enterprises) obligations, (such as Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Home Loan Bank, and Federal Farm Credit Bank), corporate bonds and other securities. Mortgage backed securities are included in level 2 if observable inputs are available. In certain cases, where there is limited activity or less transparency around inputs to the valuation, we classify those securities in level 3.

F. LONG-TERM LIABILITIES

General Obligation Bonds

The Parish issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. These bonds have been issued for governmental activities. The original amount of general obligation bonds issued in prior years was \$4,230,000. The interest rate of the general obligation bonds ranges from 2.55 – 5.00%. General obligation bonds are direct obligations and pledge the full faith and credit of the government. The outstanding balance on the general obligation bonds at December 31, 2018, is \$2,725,000.

Annual debt service requirements to maturity for general obligation bonds are as follows:

<u>Year Ending</u>	<u>Governmental Activities</u>	
	<u>Principal</u>	<u>Interest</u>
2019	\$ 350,000	\$ 84,155

Defeased Debt

During 2014, the Parish issued refunding bonds of \$2,530,000 to partially defease its 2005 General Obligation refunding bonds. The proceeds were deposited in an escrow account to provide for all future debt service on the 2005 series bonds until they are called on March 1, 2024. As a result, the 2005 series bonds are considered defeased, and the Parish has removed the liability from its accounts.

As of December 31, 2018, the defeased debt outstanding but removed from the government wide financial statements is \$1,675,000.

Conduit Debt

The Industrial District of St. James Parish has issued Pollution Control Revenue Bonds, Solid Waste Disposal Revenue Bonds, and Industrial Revenue Bonds. Obligations of the industrial districts are payable solely from the income and revenues derived from the industrial districts. These bonds do not constitute a debt or pledge of the full faith and credit of the Parish and accordingly have not been reported in the accompanying financial statements.

As of December 31, 2018, there were twelve series of Pollution Control Revenue Bonds, Solid Waste Disposal Revenue Bonds, or Industrial Revenue Bonds outstanding. The aggregate principal amount payable for the series could not be determined; however, the original issue amounts totaled \$1,140,350,000.

G. RESTRICTED ASSETS

IV. OTHER INFORMATION

A. RISK MANAGEMENT

The Parish is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the Parish carries commercial insurance including: general and auto liability, errors and omissions, professional liability, law enforcement liability, workers compensation, and various property policies.

The Parish is exposed to various risks of loss related to employee health and medical claims for the employees of the Parish. The Parish established a Group Hospitalization Claims Clearing Fund (an internal service fund) to account for and finance its uninsured risks of loss. As of December 31, 2018, the Group Hospitalization Claims Clearing Fund provides coverage for up to a maximum of \$100,000 for each employee's health claims. The insurance policy will also pay aggregate claims in excess of \$3,086,611 for the policy period ending June 30, 2019. Once the aggregate claims have exceeded the aggregate amount for the policy period, the insurance policy will pay these excess claims. The maximum to be paid on these aggregate claims by the insurance company is \$1,000,000. The Parish purchases insurance for claims in excess of coverage provided by the Fund.

All funds of the Parish participate in the program and make payments to the Group Hospitalization Claims Clearing Fund based on estimates of the amounts needed to pay prior and current year claims and to establish a reserve for catastrophic losses. That reserve was \$2,529,127 at December 31, 2018 and is reported as reserved in the net assets of the Group Hospitalization Claims Clearing Fund.

The claims liability of \$290,000 reported in the Fund at December 31, 2018, is based on the requirements of Section C50 of the GASB Codification of Governmental and Financial Reporting Standards, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards.

Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Changes in the Fund's claims liabilities during the past two years are as follows:

	Year Ended 12/31/17	Year Ended 12/31/18
Unpaid claims, beginning of year	\$ 260,000	\$ 290,000
Incurred claims	2,343,346	2,371,860
Claim payments	(2,313,346)	(2,371,860)
Unpaid claims, end of year	\$ 290,000	\$ 290,000

B. CONTINGENT LIABILITIES

The Parish is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of legal counsel the resolution of these matters will not have a material adverse effect on the financial condition of the Parish.

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time although the Parish expects such amounts, if any, to be immaterial.

C. DEFINED BENEFIT PENSION PLANS

The Parish is a participating employer in three cost-sharing defined benefit pension plans. These plans are administered by three public employee retirement systems, the Parochial Employees' Retirement System of Louisiana (PERS), the District Attorneys' Retirement System (DARS), and the Registrar of Voters Employees' Retirement System (ROVERS). Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of these plans to the State Legislature. Each system is administered by a separate board of trustees and all Systems are component units of the State of Louisiana.

Each of the Systems issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. These reports may be obtained by writing, calling or downloading the reports as follows:

Plan Descriptions:

Parochial Employees' Retirement System of Louisiana (PERS)

The Parochial Employees' Retirement System of Louisiana (PERS) is the administrator of a cost-sharing multiple-employer defined benefit pension plan. The System was established and provided by R.S.11:1901 of the Louisiana Revised Statute (LRS). The System provides retirement benefits to employees of taxing districts of a parish or any branch or section of a parish within the State which does not have their own retirement system and which elects to become members of the System. The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. All employees of the Parish are members of Plan A.

District Attorneys' Retirement System (DARS)

The District Attorneys' Retirement System, State of Louisiana is the administrator of a cost-sharing multiple employer defined benefit pension plan. The System was established on the first day of August, nineteen hundred and fifty-six and was placed under the management of the board of trustees for the purpose of providing retirement allowances and other benefits as stated under the provisions of R.S. 11, Chapter 3 for district attorneys and their assistants in each parish.

All persons who are district attorneys of the State of Louisiana, assistant district attorneys in any parish of the State of Louisiana, or employed by this retirement system and the Louisiana District Attorneys' Association except for elected or appointed officials who have retired from service under any publicly funded retirement system within the state and who are currently receiving benefits, shall become members as a condition of their employment; provided, however, that in the case of assistant district attorneys, they must be paid an amount not less than the minimum salary specified by the board for assistant district attorneys. The projection of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through the System in accordance with the benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date.

Plan Descriptions (Continued):

Registrar of Voters Employees' Retirement System (ROVERS)

The System was established on January 1, 1955 for the purpose of providing retirement allowances and other benefits as stated under the provisions of R.S. Title 11:2032, as amended, for registrars of voters, their deputies and their permanent employees in each parish. The projection of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through the System in accordance with the benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date.

Funding Policy

Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer's portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems' Actuarial Committee (PRSAC).

Contributions to the plans are required and determined by State statute (which may be amended) and are expressed as a percentage of covered payroll. The contribution rates in effect for the year ended December 31, 2018, for the Government and covered employees were as follows:

	Government	Employees
Parochial Employees' Retirement System of Louisiana:		
Plan A	11.50%	9.50%
District Attorneys' Retirement System	1.25%	8.00%
Registrar of Voters Employees' Retirement System	17.00%	7.00%

The contributions made to the Systems for the past three fiscal years, which equaled the required contributions for each of these years, were as follows:

	December 31,		
	2018	2017	2016
Parochial Employees' Retirement System of Louisiana:

C. DEFINED BENEFIT PENSION PLANS (Continued)

Actuarial Assumptions (Continued)

The following schedule list the methods used by each of the retirement systems in determining the long term rate of return on pension plan investments:

<u>PERS</u>	<u>DARS</u>	<u>ROVERS</u>
The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.0% and an adjustment for the effect of rebalancing / diversification. The resulting expected long-term rate of return is 7.62% for the year ended December 31, 2017.	The estimated long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The long-term rate of return was 9.45% as of June 30, 2018.	The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The resulting long-term rate of return is 8.83% for the year ended June 30, 2018.

Expected Arithmetic Nominal Return				<u>7.62%</u>	<u>9.45%</u>	<u>8.83%</u>

Discount Rate

The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, each of the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate used to measure the total pension liability for PERS was 6.75% for the year ended December 31, 2017. The discount rate used to measure the total pension liability for DARS and ROVERS was 6.50% and 6.50%, respectively for the year ended June 30, 2018.

D. DEFERRED COMPENSATION PLAN

The Parish offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all Parish employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, or unforeseeable emergency.

Effective January 3, 2000, all permanent, full-time employees of the Parish are eligible to participate in the voluntary matching deferred compensation program offered by the Parish. The program provides a yearly matching contribution, based on the employee's length of service. The maximum yearly matching contribution by the Parish is \$2,000 per employee. The Parish's contribution to the plan for the year ended December 31, 2018, 2017, and 2016 were \$156,236, \$164,643, and \$169,515, respectively.

E. POSTEMPLOYMENT HEALTH CARE BENEFITS (OPEB)

General Information about the OPEB Plan

Plan Description - The Parish provides certain continuing health care benefits for its retired employees. The Parish's OPEB Plan is a single-employer defined benefit OPEB plan administered by the Parish. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the Parish. No assets are accumulated in a trust that meets the criteria in Government Accounting Standards Board Codification Section P52 *Postemployment Benefits Other Than Pensions – Reporting for Benefits Not Provided Through Trusts That Meet Specified Criteria – Defined Benefit*.

Benefits Provided - Medical/dental benefits are provided through a self-insured comprehensive health benefit program. Full details are contained in the official plan documents. Medical benefits are provided to employees upon retirement according to the retirement eligibility provisions are as follows: 30 years of service at any age; age 55 and 25 years of service; age 60 and 10 years of service; or, age 65 and 7 years of service. Employees hired on or after January 1, 2007, have the following retirement eligibility provisions: 30 years of service at any age; age 62 and 10 years of service; or age 67 and 7 years of service.

Employees covered by benefit terms – At December 31, 2018, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	34
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	<u>168</u>
	<u><u>202</u></u>

Total OPEB Liability

The Parish's total OPEB liability of \$8,530,826 was measured as of December 31, 2018 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs – The total OPEB liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5%
Salary increases	4.0%, including inflation
Discount rate	3.44% annually (beginning of year to determine ADC)
	4.10% annually (as of end of year measurement date)
Healthcare cost trend rates	5.5% annually

The discount rate was based on the Bond Buyers' 20 Year General Obligation municipal bond index as of December 31, 2018, the end of the applicable measurement period.

Mortality rates were based on the RP-2000 Table without projection with 50%/50% unisex blend.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of ongoing evaluations of the assumptions from January 1, 2009 to December 31, 2018.

Changes in the Total OPEB Liability

Balance at December 31, 2017, Restated	\$ 9,420,283

F. PROPERTY TAX ABATEMENT

The local government is subject to certain property tax abatements granted by the Louisiana State Board of Commerce and Industry (the "State Board"), a state entity governed by board members representing major economic groups and gubernatorial appointees. Abatements to which the government may be subject include those issued for property taxes under the Industrial Tax Exemption Program ("ITEP") and the Restoration Tax Abatement Program ("RTAP"). In addition, the local government has the authority to grant sales tax rebates to taxpayers pursuant to the Enterprise Zone Tax Rebate Program ("EZ Program"). For the year ending December 31, 2018, the government participated in the Industrial Tax Exemption Program and the Enterprise Zone Tax Rebate Program.

Under the ITEP, as authorized by *Article 7, Section 21(F) of the Louisiana Constitution and Executive Order Number JBE 2016-73*, companies that qualify as manufacturers can apply to the State Board for a property tax exemption on all new property, as defined, used in the manufacturing process. Under the ITEP, companies are required to promise to expand or build manufacturing facilities in Louisiana, with a minimum investment of \$5 million. The exemptions are granted for a 5-year term and are renewable for an additional 5-year term upon approval by the State Board. In the case of the local government, these state-granted abatements have resulted in reductions of property taxes, which the tax assessor administers as a temporary reduction in the assessed value of the property involved. The abatement agreements stipulate a percentage reduction of property taxes, which can be as much as 100 percent. The local government may recapture abated taxes if a company fails to expand facilities or otherwise fails to fulfill its commitments under the agreement.

Under the EZ Program, as authorized by Louisiana Revised Statute 51:1787, companies can apply for a state or local sales tax refund on eligible spending related to a project that creates a minimum number of permanent full-time jobs within certain specified geographic areas or certain targeted groups. To qualify, a company must either create a minimum of 5 net new full-time jobs within 24 months of the project start date or increase their current nationwide workforce by 10% within the first 12 months. These new employees must be from one of four targeted groups: i) residents living within certain geographic areas; ii) people receiving an approved form of public assistance; iii) people lacking basic skills – a person performing below a ninth grade proficiency in reading, writing and math; or iv) people unemployable by traditional standards. The company must certify that their new employees fall into one of the four targeted groups. Companies accepted into the EZ Program must document the sales taxes paid on qualifying purchases during the project. Upon completion of the project, the company must submit a request to receive a rebate of those sales taxes paid on qualifying purchases. The local government is authorized to establish the percent of the sales tax subject to the rebate. A local government is strictly prohibited from rebating any sales tax that is dedicated to the repayment of bonded indebtedness or dedicated to schools.

G. LOUISIANA LEGISLATIVE AUDITOR

For the St. James Parish's audit report for the year ended December 31, 2018, the Louisiana Legislative Auditor is currently performing two separate investigations of the financial records of St. James Parish. These two separate investigations have not been completed at the date of this report, June 28, 2019. The effects of these two separate investigations on the financial statements for the year ended December 31, 2018 are unknown at this time.

H. SELECTED DISCLOSURES FOR DISCRETELY PRESENTED COMPONENT UNITS

Financial reporting standards require footnote disclosures on discretely presented component units considering both the units' significance relative to the total discretely component units and the nature and significance of the units' relationship to the primary government (the Parish). As such, the following disclosures are presented:

1. St. James Parish Hospital

Deposits

State law requires collateralization of all deposits with federal depository insurance and other acceptable collateral in specific amounts. The Hospital's deposit policy for custodial credit risk requires compliance with the provisions of state law, which are to be insured or collateralized by U.S. government securities held by the pledging financial institution's trust department in the name of the Hospital.

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Hospital's deposits may not be returned to them. As of March 31, 2018, \$2,345,642 of the Hospital's bank balance totaling \$1,967,689 was exposed to custodial credit risk. \$250,000 of deposits, at each institution, was secured by federal deposit insurance coverage, which was not exposed to custodial credit risk. The remaining deposits, which were exposed to custodial credit risk, were secured by the pledge of securities owned by the fiscal agent bank.

Investments

The Hospital's investments generally are reported at fair value. The Hospital categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Hospital had the following recurring fair value measurements as of March 31, 2018.

Investments by Fair Value Level	3/31/2018	Level 1	Level 2	Level 3
U.S Agencies	\$ 12,116,641	\$ 1,115,334	\$ 11,001,307	\$ -
Total	\$ 12,116,641	\$ 1,115,334	\$ 11,001,307	\$ -

H. SELECTED DISCLOSURES FOR DISCRETELY PRESENTED COMPONENT UNITS (Continued)

1. St. James Parish Hospital (Continued)

Investments (Continued)

The Hospital had the following investment maturities as of March 31, 2018.

Investment Type	Carrying Amount	Investment Maturities (in Years)			
		Less than 1	1-5	6-10	More than 10
U.S Agencies	\$ 12,116,641	\$ 3,868,270	\$ 8,248,371	\$ -	\$ -
Total	\$ 12,116,641	\$ 3,868,270	\$ 8,248,371	\$ -	\$ -

Interest Rate Risk – The Hospital's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from changing interest rates.

Credit Risk – The Hospital's investment policy, in compliance with Louisiana Revised Statute 33:2955, allows the Hospital to invest in United States Treasuries, United States Agency securities, and certificates of deposit. As of March 31, 2018, the Hospital's investment in U.S. Agencies were rated Aaa by Moody's Investors Service and AA+ by Standard & Poor's.

Concentration of Credit Risk – The Hospital's investment policy does not limit the amount the Hospital may invest in any one issuer. More than 5% of the Hospital's investments are in the Federal Credit Bank, the Federal Home Loan Bank, the Federal Home Loan Mortgage Corporation, the Federal Agricultural Mortgage Company, and the Federal National Mortgage Association. These investments are 21%, 31%, 17%, 8%, and 23% of total investments, respectively at March 31, 2017.

Patient Accounts Receivable

Patient accounts receivable for the Hospital at March 31, 2018 consist of the following:

Gross patient receivables	\$ 6,128,118
Less: allowance for uncollectible	<u>(3,877,180)</u>
Net patient receivables	<u>\$ 2,250,938</u>

Long-Term Liabilities

Long-term liability activity for St. James Parish Hospital for the year ended March 31, 2018, was as follows:

	Balance March 31, 2017	Borrowings	Payments	Balance March 31, 2018
Leases, Bonds, and Notes Payable:				
Revenue Bonds				
Series 2008 R-1	\$ 6,820,104	\$ -	\$ (109,232)	\$ 6,710,872

Less current maturities	(542,087)			(560,245)
Total long-term debt	<u>\$ 12,623,020</u>			<u>\$ 12,062,776</u>

On July 2, 2008, the Hospital issued \$7,600,000 of Revenue Bonds, Series 2008 R-1, as a single, fully-registered bond issue, payable through July 2, 2048, at an interest rate of 4.125%.

On June 4, 2014, the Hospital issued \$7,470,000 of Hospital Revenue Refunding Bonds, Series 2014, as a single, fully-registered bond issue, payable through June 2, 2029, at an interest rate of 3.09% to current refund \$8,185,000 of outstanding 2008 Series A-D bonds with an average interest rate of 7.80%. The proceeds of \$7,470,000, together with internal funds of \$1,856,370 (which includes monies in the existing sinking fund, a call premium, a forward fee, and accrued interest), were used to secure the repayment of the outstanding 2008 Series bonds. As a result, the 2008 Series bonds are considered to be defeased and the liability for those bonds has been removed from the general long-term debt account group.

The current refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$1,176,708. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to operations through the year 2030 using the straight-line method. For the year ended March 31, 2018, the deferred amount on refunding totaled \$875,994.

The bonds are collateralized by a pledge of the Hospital Service District's revenue, land, building and improvements, and personal property thereon. Under the terms of the revenue note indenture, the Hospital is required to maintain certain deposits with a trustee. Such deposits are included in restricted and internally designated assets in the statements of net position. These funds are maintained at the Trustee and require monthly funding by the Hospital Service District. The revenue note indenture also requires that the Hospital satisfy certain measures of financial performance as long as the notes are outstanding. The Hospital was in compliance with all covenants of its outstanding bond issues at March 31, 2018.

Pension Plan

Plan Description

The Hospital is a member of the Parochial Employees' Retirement System of Louisiana (PERS or the System), a cost-sharing multiple-employer defined benefit pension plan. All full-time, permanent employees working at least 28 hours per week who are paid wholly or in part from the Hospital's funds are eligible to participate in PERS Plan B.

Under PERS Plan B, any member can retire providing he/she meets one of the following:

For employees hired prior to January 1, 2007:

1. Age 55 with thirty (30) years of creditable service
2. Age 60 with a minimum of ten (10) years of creditable service
3. Age 65 with a minimum of seven (7) years of creditable service

For employees hired after January 1, 2007:

1. Age 55 with thirty (30) years of service
2. Age 62 with ten (10) years of service
3. Age 67 with seven (7) years of service

Generally, the monthly amount of the retirement allowance for any member of Plan B shall consist of an amount equal to two (2) percent of the member's final average compensation multiplied by his years of creditable service. However, under certain conditions, as outlined in the statutes, the benefits are limited to specified amounts. The System also provides death and disability benefits. Benefits are established by state statute.

Plan Description (Continued)

The System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Parochial Employees' Retirement System, Post Office Box 14619, Baton Rouge, Louisiana 70898-4619, accessed via internet at www.persla.gov, or calling (225) 928-1361.

Contributions

Contributions to Plan B include one-fourth of one percent of the taxes shown to be collectible by the tax rolls of each parish except Orleans and East Baton Rouge parishes. Plan B members are required to contribute 3% of their annual covered salary. The Hospital is required to contribute at an actuarially determined rate. The current rate is 8% of annual covered salary for the year ended March 31, 2018. As provided by LRS 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation of the prior year. The Hospital's contributions to Plan B for the years ended March 31, 2018, 2017, and 2016, were \$686,766, \$673,259, and \$720,694, respectively, which is equal to the required contribution.

Net Pension Asset (Liability)

At March 31, 2018, the Hospital reported an asset of \$1,073,503 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2017, and was determined by actuarial valuation as of that date. The Hospital's proportion of the net pension asset was based on a projection of the Hospital's long-term share of contributions to the pension plan relative to the projected contributions of all municipalities, actuarially determined. At December 31, 2017, the Hospital's proportion was 8.532025%.

For the year ended March 31, 2018, the Hospital recognized pension expense of \$631,048. At March 31, 2018, the Hospital reported deferred outflows of resources and deferred inflows of resources related to its pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 559,064
Net difference between projected and actual earnings on pension plan investments	-	1,263,464
Changes in assumptions	631,619	-
Changes in proportion and differences between Hospital change in proportion	3,196	1,058
Pension contributions subsequent to measurement date	153,372	-

In the year ended March 31, 2018, \$153,372 reported as deferred outflows of resources related to pensions resulting from the Hospital's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as an expense in pension expense/(benefit) as follows:

Year Ending	Amount
2019	\$ (57,624)

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the net position liability as of March 31, 2018, is as follows:

Valuation Date	December 31, 2017
Actuarial Cost Method	Entry Age Normal
Investment Return	6.75% (net of Investment Expense)
Expected Remain Service Life	4 Years
Projected Salary Increase	5.25% (2.75% Merit / 2.5% Inflation)
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees
Mortality	RP-2000 Employee Sex Distinct Table was selected for employees. RP-2000 Healthy Annuitant Sex Distinct Tables were selected for annuitants and beneficiaries. RP-2000 Disabled Lives Mortality Table was selected for disabled annuitants.

Pension Plan (Continued)

Actuarial Assumptions (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of December 31, 2017, are summarized in the following table:

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Long-Term Expected Portfolio Real Rate of Return</u>
Fixed Income	35%	1.24%
Equity	52%	3.57%
Alternative	11%	0.69%
Real Assets	2%	0.12%
Inflation	100%	5.62%
Expected Arithmetic Normal Return		2.00%
		<u>7.62%</u>

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up), and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.00% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 7.62%, for the year ended December 31, 2017.

The discount rate used to measure the total pension liability was 6.75% for Plan B. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers and non-employer contributing entities will be made at the actuarially determined contribution rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement System's Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Patient Service Revenue

The Hospital has agreements with third-party payors providing payments to the Hospital at amounts different from the Hospital's established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare – Since obtaining critical access designation, inpatient and outpatient services rendered to Medicare programs beneficiaries are reimbursed under cost reimbursement methodologies. The Hospital is reimbursed by the Medicare fiscal intermediary at a tentative interim rate with final settlement determined with the submission of annual cost reports and audits. The Hospital's Medicare cost reports have been filed with the Medicare fiscal intermediary through March 31, 2018. Desk review have been performed on reports issued through March 31, 2016.

Medicaid – Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology. The Hospital is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicaid fiscal intermediary. The Hospital's Medicaid cost reports have been filed with the fiscal intermediary through March 31, 2018. A desk review has been performed on Medicaid reports issued through March 31, 2017.

The Hospital has also entered into payment agreements with certain commercial insurance carriers, health management organizations, and preferred provider organizations. The basis for payment to the Hospital under these agreements includes prospectively determined rates per discharge, discounts from established charges, prospectively determined daily rates, and Medicare fee schedules.

The Hospital is located in Litcher, Louisiana and grants credits without personal collateral to its patients and their insurance companies, most of whom are residents in the area. The mix of patient service revenues as of March 31, 2018 is as follows:

Medicare	20%
Medicare Advantage	21
Medicaid	27
Commercial Providers	28
Self-pay	4
	100%

Insurance Programs

Risk Management

The Hospital is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Hospital is a member of two separate trust funds established by the Louisiana Hospital Association that encompasses self-insurance of (1) hospital professional liability and comprehensive general liability, and (2) statutory workers' compensation. The Hospital carries commercial insurance for all other risk of loss.

The trust funds for professional liability/comprehensive general liability and statutory workers compensation are pooling arrangements whereby there is a sharing of risk among the participants of the trust funds. The Hospital reports its premiums as insurance expenditures and expenses these premiums over the pro rata periods involved.

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued September 26, 2018, and determined that other than as described below, no events occurred that require additional disclosure. No events occurring after this date have been evaluated for inclusion in these financial statements.

This program is funded by the Corporation for National and Community Services.

Children's Trust Fund

The Children's Trust Fund accounts for a Community-Based Child Abuse Prevention grant provided to the St. James Parish Department of Human Resources, CAA, for the purpose of sponsoring child abuse and neglect prevention activities such as mini parenting conferences for both parents and their young children and a community public awareness campaign within St. James Parish.

Homeowners' Rehabilitation Program Fund

The Homeowners' Rehabilitation Program Fund accounts for the federal funds for providing a mechanism for eligible homeowners affected by Hurricanes Katrina and Rita to bring their eligible houses into compliance with required codes and provide safe, decent housing for low and moderate income persons. The federal funds for this project are provided to the Parish of St. James through the Community Development Block Grant.

Schedule 7 (Concluded)

NONMAJOR DEBT SERVICE FUNDS

The debt service funds are used to account for the accumulation of general obligation bonds principal and interest from governmental resources. Revenues for the debt service funds are provided by property taxes, sales taxes, and interest on investments. The Parish maintains the following debt service funds:

Certificates of Indebtedness Fund

The Certificates of Indebtedness Fund accounts for the retirement certificates of indebtedness. In 2010 the Parish issued certificates of indebtedness totaling \$2,000,000 for the purpose of renovating, improving, equipping, and expanding the library facilities on the East Bank. Limited Tax Certificates, Series 2011, in the amount of \$2,500,000 were issued for the purpose of renovating, improving and expanding St. James Parish Hospital. In 2012, the Parish issued Limited Tax Certificates, Series 2012, in the amount of \$180,000 for the purpose of purchasing a fire truck and other fire equipment.

Consolidated General Obligation Bonds Fund

The Consolidated General Obligation Bonds Fund accounts for the property tax levies needed to comply with the interest and principal redemption requirements of the General Obligation Refunding Bonds, Series 2005 issue, the General Obligation Bonds, Series 2007 issue, and the General Obligation Bonds, Series 2014 issue.

Limited Tax Bonds Fund

The Limited Tax Bonds fund accounts for the sale of \$850,000 in Limited Tax Bonds, Series 2017, for the payment of the pre-construction design and engineering costs in connection with the widening of Louisiana Highway 20.

NONMAJOR CAPITAL PROJECTS FUNDS

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds. The following are the Parish's capital projects funds:

Parishwide Road Improvement Fund

The Parishwide Road Improvement Fund accounts for parishwide road improvements which includes the construction of new roads and bridges. This fund is supported by transfers from the Road and Bridge Maintenance Fund.

Parishwide Sewer Construction Fund

The Parishwide Sewer Construction Fund accounts for expenditures associated with the proposed construction of a parishwide sewer system. The program was financed by the United States Environmental Protection Agency (75%) and the St. James Parish Council (25%) through the sale of general obligation bonds. The program consisted of three phases of which two phases have been completed. Actual construction on the third phase has not yet begun.

LCDBG Road Improvement Fund

The LCDBG Road Improvement Fund accounts for parishwide road improvements funded with a Louisiana Community Development Block Grant. Funding is provided from the State of Louisiana, Division of Administration, Office of Community Development.

LCDBG Sewer Construction Fund

The LCDBG Sewer Construction Fund is used to account for expenditures associated with the development and construction of a community sewerage treatment and disposal system funded with a Louisiana Community Development Block Grant. Funding is provided from the State of Louisiana, Division of Administration, Office of Community Development.

District V Recreation Construction Fund

The District V Recreation Construction Fund accounts for the construction of a multi-purpose building for the District V Recreation District. Funding was provided by the sale of general obligation bonds in the amount of \$1,700,000.

Hazard Mitigation Grant Fund

The Hazard Mitigation Grant Fund accounts for projects that help localized drainage improvements, and building retrofitting and hardening. Funding is provided by FEMA through the State of Louisiana, Governor's Office of Homeland Security and Emergency Preparedness.

Highway 20 Widening Project Fund

The Highway 20 Widening Project Fund accounts for the expenditures of the pre-construction design and engineering fees for the widening of Louisiana Highway 20.

SPECIAL REPORTS OF CERTIFIED PUBLIC
ACCOUNTANTS AND OTHER SCHEDULES REQUIRED
BY *GOVERNMENT AUDITING STANDARDS* AND
UNIFORM GUIDANCE

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the President and Members
St. James Parish Council
Convent, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of St. James Parish, State of Louisiana, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise St. James Parish's basic financial statements, and have issued our report thereon dated June 28, 2019. Our report includes a reference to other auditors who audited the financial statements of the aggregate discretely presented component unit, St. James Parish Hospital, as described in our report on St. James Parish, State of Louisiana's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered St. James Parish, State of Louisiana's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of St. James Parish, State of Louisiana's internal control. Accordingly, we do not express an opinion on the effectiveness of St. James Parish, State of Louisiana's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether St. James Parish, State of Louisiana's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND
ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the President and Members
St. James Parish Council
Convent, Louisiana

Report on Compliance for Each Major Federal Program

We have audited St. James Parish, State of Louisiana's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of St. James Parish, State of Louisiana's major federal programs for the year ended December 31, 2018. St. James Parish, State of Louisiana's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of St. James Parish, State of Louisiana's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about St. James Parish, State of Louisiana's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of St. James Parish, State of Louisiana's compliance.

Opinion on Each Major Federal Program

In our opinion, St. James Parish, State of Louisiana, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2018.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as item [2018-002]. Our opinion on each major federal program is not modified with respect to this matter.

Report on Internal Control Over Compliance

Management of St. James Parish, State of Louisiana, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered St. James Parish, State of Louisiana's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of St. James Parish, State of Louisiana's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item [2018-001] that we consider to be a significant deficiency.

St. James Parish's response to the noncompliance and internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. St. James Parish's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SCHEDULE

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of St. James Parish under programs of the federal government for the year ended December 31, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operation of St. James Parish, it is not intended to and does not present the financial position, changes in net assets, or cash flows of St. James Parish.

(2) Reconciliation of Federal Expenditures

Federal assistance expended as reported on Schedule of Expenditures of Federal Awards	\$ 1,617,930
Add: current year revenues received and not utilized in current year	518,540
Add: revenue received in current year for prior year federal expenditures	12,511
Less: revenues accrued in previous years for expenditures not reimbursed by grantor	<u>(77,855)</u>
Federal grant revenues	<u>\$ 2,071,126</u>
Federal grant revenues as reported on:	
Statement E - All Governmental Fund Types - Statement of Revenues, Expenditures, and Changes in Fund Balance	\$ 1,858,545
Statement H - Proprietary Funds - Statement of Revenues, Expenses, and Changes in Net Position	<u>212,581</u>
	<u>\$ 2,071,126</u>

(3) Indirect Cost Rate

St. James Parish has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

UNITED STATES DEPARTMENT OF TRANSPORTATION AND DEVELOPMENT
Passed through the Louisiana Department of Transportation and Development

Formula Grants for Rural Areas – CFDA No. 20.509
Transit Services Program Cluster – CFDA No. 20.516 and 20.521

Criteria: In accordance with Title 2 - Part 200 - Subpart E - Section 200.403, costs must (a) be necessary and reasonable for the performance of the Federal award, (b) conform to any limitations or exclusion set forth in the award as to types or amounts, (c) be consistent with existing policies and procedures, (d) be accorded consistent treatment, (e) be determined in accordance with generally accepted accounting principles (GAAP), (f) be adequately documented.

Condition: During our Single Audit testing, there were multiple purchases made for auto parts that were not related to the transit fleet.

Context: The total expenditures for the Transit programs totaled \$1,059,424. A sample of 25 expenditures resulted in 4 expenditures having questioned costs of \$827 relating to the purchase of auto parts. Based on the results of the initial testing, an additional sample of 29 expenditures relating to the purchase of auto parts was selected. In this sample, 4 additional expenditures revealed questioned costs totaling \$1,560 relating to auto parts purchases. Of the 54 expenditures totaling \$209,903 selected for testing, 8 expenditures totaling \$2,387 are questioned costs.

Cause: The Parish failed to establish an effective internal control to ensure compliance with the allowable/allocable cost requirement. The lack of controls over this compliance requirement caused the Parish to request reimbursement for costs that were not related to the purpose of the program.

Questioned Costs: \$2,387

Effect: The failure to properly review the purchase order and related invoices resulted in Federal funds from the pass-through entity to be spent on unnecessary purchases.

Recommendation: The Parish should establish an understanding with the individuals responsible for approving purchase orders and invoices such that the individual approving the purchase orders or invoices understands the purpose of such purchase.

View of Responsible Official: The Parish concurs with the finding.
